OBJECTIVE

Aspiring Computer Science Engineer with strong foundations in Data Structures, Artificial Intelligence, and Programming languages. Experienced in building AI-driven applications and end-to-end software solutions. Seeking software engineering roles to apply problem-solving skills, optimize system performance, and contribute to scalable, real-world products.

ACHIEVEMENTS

- Winner of college-level coding competition among multiple teams.
- Secured 2nd position in IoT Hackathon by developing a real-time solution.
- **HackerRank Python 5-Star**

EDUCATION

B.Tech in Computer Science and Engineering
ACADEMY OF TECHNOLOGY — **CGPA: 7.97**

Higher Secondary (CBSE)
TECHNO INDIA GROUP PUBLIC SCHOOL JALPAIGURI — **75.00%**

Secondary (CBSE)
TECHNO INDIA GROUP PUBLIC SCHOOL JALPAIGURI — **75.83%**

SKILLS

- **Languages:** C, C++, Python
- **Core Subjects:** Data Structures and Algorithms (DSA), Operating Systems, DBMS, Computer Networks
- **Database: My**SQL
- **Tools:** Power BI, Git, GitHub,FastApi
- **Technical Experience:** Ai Engineering , DSA problem solver , Machine Learning , Backend
- **Soft Skills:** Communication, Teamwork, Leadership

PROJECTS

EyeCare AI Platform (Ongoing) *Python, OpenCV*

- Built an AI-powered diagnostic system for retinal disease detection (CNV, DME, DRUSEN, NORMAL) using deep learning models.
- Designed an end-to-end pipeline from image upload to automated clinical PDF report generation.
- Integrated telemedicine features enabling remote consultation between patients and doctors.

Android Application Development *Kotlin, Java, Android Studio*

- Developed multiple Android applications including a calculator and a dynamic birthday card generator with custom UI.
- Implemented efficient UI/UX design using modern Android components and layouts.
- Optimized application performance and responsiveness across different screen sizes.

Resume Parser

- Build a resume parser for the recruiters where they will upload the Job descriptions and the resume pdf o the students the Resume parser will shortlist the students based on a score
- A score base filter
- Very easy to use and can be integrate with condition which will improve efficiency by 80% of recruiters

Personal Portfolio Ai

- **A Portfolio Ai website which is trained on my resume to answer all the questions of user**
- **Made using LLM call and FastApi and front end technology React**

CERTIFICATIONS

- Data Analytics with Cloud & AI - Godrej Infotech & Centum Foundation
- College Level Coding Competition Winner

LANGUAGES

English, Hindi, Bangla, Assamese
